FOR YOUR DODGE VIPER

The Dodge Viper Advantage

How We Maximize Your Return

Get rid of this. Don’t make it specifc to Randy make it general

I

Forensic Photo & Video Suite

Every panel, seam, underbody and engine bay documented in high resolution, plus cold-start and drive-by video. The Viper’s V10 sound, stance and fit-and-finish are the first things bidders judge, so they’re captured properly and answered before they’re asked.

II

Collector Storytelling

A listing written for the people who bid: provenance, options, ownership history and what makes your car desirable. For a Viper, that means the generation, color and rarity, the manual V10 character, and the story of how it was kept.

III

24/7 Auction-Week Moderation

Comments are where a seven-day auction is won or lost. Questions get fast, factual, transparent answers, skeptics get documentation, and the seller’s voice stays consistent from the first comment to the final bid.

IV

Secure Escrow & Transport

Payment is handled through a secure, verifiable escrow process, and delivery to the buyer is coordinated once the sale closes, so the final step of the deal is as controlled as the auction itself.

Let’s put your Viper in front of the right bidders.

A Viper is an emotional, enthusiast-driven car, and that is exactly the audience these two platforms reach. The next step is a short conversation about your car’s history, condition and goals, followed by a recommended platform, schedule and pricing strategy.
